

# A HOUSEFUL OF EQUIPMENT EXPOSURES

Take a walk around your home. You'll probably find that it contains many expensive systems that are subject to failure and mechanical breakdown, which are losses that aren't covered by your traditional insurance policy.

**If it uses electricity, it's subject to equipment breakdown.**

**Equipment Breakdown Coverage** can be added to your policy for \$50/year. Visit [SecurityFirstFlorida.com](http://SecurityFirstFlorida.com) for more information.
